Dear Prayer Supporter,

What a blessing that, “*by the faith of the Son of God,*” a believer can go **“Forward in Faith.”** In reading this seventh chapter, you will be blessed and encouraged to live as, “*unto Jesus Christ our Lord.*”

In India, where severe Christian persecution is affecting the whole land, many are already being encouraged by this little book. Please pray with us as ten language translations/printings are being distributed, as also in

English! Together with “Your Quest for God,” this book is being used in the Punjabi language, over the powerful TWR/PANI radio outreach into Pakistan, Afghanistan and Northern India. Only through your prayers and gifts is this unique, God-given opportunity possible. On behalf of the many believers, “Thank you so much!”

In His love,

**Pray for persecuted believers in India who are being much encouraged by our “Forward in Faith” books.**

From OM India, where already “Your Quest for God” is printed in 17 languages, an appeal for “Forward in Faith” was recently received and prayerfully acted on by CCIM:

“The church in India is faced with enormous challenges from various fronts including severe persecution and displacements of Christians throughout the country with more such things in the pipeline nationally.

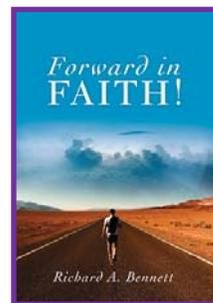

“Your translations/printings will encourage believers in Hindi, Telugu, Malayalam, Kannada, Tamil, Gujarati, Marathi, Punjabi, Oriya, Bengali as well as in English. The persecuted church in India need more prayer to be mobilized so that they don’t deny their

faith and go back to the faith of the persecutors’ even at the face of exerting force, physical torture and martyrdom.”

CCIM, upon realizing this urgency, acted on your behalf in faith and is trusting the Lord for \$18,440 to translate/print “Forward in Faith.” These books will especially encourage believers in the Indian Church.

Please join us in prayer remembering:

**“Them that are in bonds, as bound with them; and them which suffer adversity, as being yourselves also in the body.”** Hebrews 13:3.
